Academy of Sciences of the Czech Republic

Krakow, 2016

# Academy of Sciences of the Czech Republic

---

- ▶ established in 1992
  - ▶ a fundamental part of the mission is to ensure that the published work of its scientists can be read and utilised by the widest possible audience
- ▶ **comprised of 54 public research institutes** and each one is a separate legal entity
- ▶ **more than 7,000 employees**, including 3,500 researchers
- ▶ institutes publish more than 70 scientific journals in which more than 3,000 articles are published in any given year
- ▶ researchers also publish **more than 11,000 articles, reports etc. annually** in other journal

# Open Access Policy I.

---

- ▶ The ASCR is a signatory of the Berlin Declaration of 2008
- ▶ In 2009 the ASCR adopted the following OA policy:
  - ▶ „each Academy employee grants to the ASCR nonexclusive permission in legal terms to make available to OA his or her scholarly articles in any medium“
  - ▶ „this policy applies to all scholarly and professional articles written while the person is an employee of the Academy“
- ▶ Institutes of the ASCR are obliged to provide the ASCR Library copies of their works
  - ▶ included is the right to communicate the work to the public adhering to the Legal Code of the Czech Republic

# Open Access Policy II.

---

- ▶ The policy obligates Academy institutes to ensure that their scientists' patrimonial rights to such works are not violated.
- ▶ Examples of works included in this policy are:
  - ▶ published scientific articles
  - ▶ books or chapters of books
  - ▶ presentations
  - ▶ reports
  - ▶ pedagogical materials
  - ▶ etc.

# „Gold“ Open Access Fund I.

---

- ▶ a fund created in 2010 for OA publishing authors at the Academy of Sciences
- ▶ operating since 2011 with an annual subsidy 1,000,000 CZK (40,000€)
- ▶ grants from this fund are available only to ASCR authors
- ▶ Other conditions include:
  - ▶ the OA journal must be included in WoS, Scopus or ERIH
  - ▶ must not have a hybrid publishing model (included in 2012)
- ▶ the funding was stopped in 2015
  - ▶ OA publishing support agenda has been moved to institutes

# „Gold“ Open Access Fund II.

---

- ▶ Applications are received in the web form and include:
  - ▶ electronic copy of the letter confirming acceptance of the article for publishing
  - ▶ the first page of the article and the workplace of the author
  - ▶ confirmation of payment
- ▶ Maximum support for one article is 25,000 CZK (1,000€)
- ▶ Each year ASCR supports about 50 applications:
  - ▶ 90 percent being from authors of the Life and Chemical Sciences.

# Institutional Repository I.

---

- ▶ The repository is an extension of the ASEP bibliography database originally used for records of research outputs of ASCR institutions.
  - ▶ The Academy of Sciences Library has coordinated data collection of publications and results of basic research at ASCR institutes since 1993
    - ▶ 255 359 records
  - ▶ on January 2, 2012, the ASEP database became the Institutional Repository of the ASCR
    - ▶ 10 951 full texts

# Institutional Repository II.

---

- ▶ 27 institutes signed contracts on archiving full-texts in the repository during 2012
- ▶ Nearly 3,000 full texts is available after 18 months
- ▶ Articles in the repository have two forms of entry:
  - ▶ "open access"
  - ▶ "request a copy"
- ▶ The form of access is determined primarily on an analysis of ASCR authors' contracts with publishers.
  - ▶ Each co-author may request deleting articles in the repository.

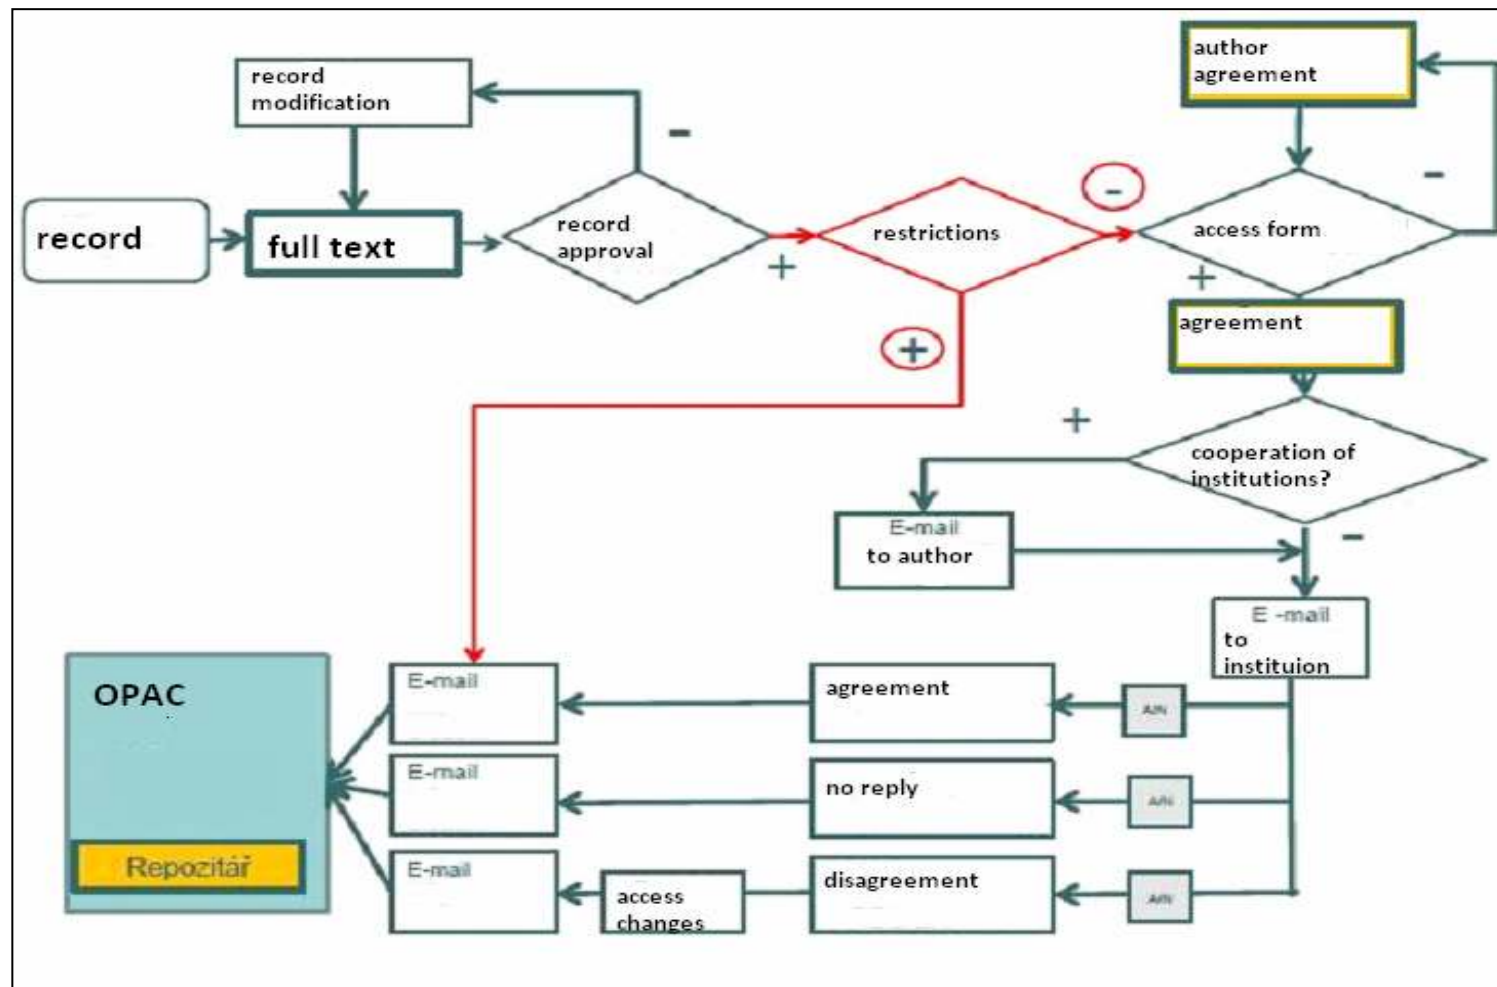

# Institutional Repository III.

---

- ▶ **all** institutes have signed contracts on archiving full-texts in the repository during 2014-2015
- ▶ 11,000 full texts is available
- ▶ Articles in the repository have three forms of entry:
  - ▶ "open access"
  - ▶ "request a copy"
  - ▶ hidden full texts for evaluation purposes only

# Workflow

# Institutional Repository IV.

---

- ▶ All accessible full texts are available to directors and researchers of the author's institute.
- ▶ Open access to the full text is only with the approval of the institute's data administrator and agreement of the co-author.
- ▶ Authors can embargo full texts available in OA mode before being available to the public.
  - ▶ However, such texts can be requested by e-mail directly from the author

# Institutional Repository V.

---

- ▶ Visible full texts are in the repository in three forms:
  - ▶ by approval
    - ▶ the data administrator has not set parameters
  - ▶ by permission
    - ▶ the data administrator checks the full text and approves the parameter setting; co-authors are asked for permission to access the publication, but the full text is accessible only for co-authors and data administrator
  - ▶ full text is published in the repository and it is available to all users

# Institutional Repository V.

---

- ▶ primarily scientific articles are stored
  - ▶ all kinds of research documents in any of their versions can be stored
  - ▶ the size of the file is not limited
  - ▶ the user is entitled to use the work for individual requirements
  - ▶ accessible work may also be used in teaching for illustration purposes or during scientific research
  - ▶ in all cases, the name of the author, the title of the work and source must always to be indicated.

# Negotiations with publishers

---

- ▶ the Academy Library negotiates with publishers in whose journals articles by Academy authors are most frequently published
- ▶ The contract concluded with Elsevier Ltd., e.g., allows systematic storing in in the Academy's Institutional Repository
  - ▶ author postprints
  - ▶ including a list of titles embargoed and when the article can be made freely available to users.
- ▶ Many publishers don't require a special agreement and it is possible to follow the data on the Sherpa/Romeo database

# Publishers in whose journals CAS's authors are publishing most frequently

1	Elsevier	543
2	Springer Verlag	262
3	Wiley-Blackwell	125
4	American Chemical Society	90
5	Wiley-VCH Verlag Berlin	57
6	Taylor & Francis	40
7	Institute of Physics	39
8	Oxford University Press	37
9	Blackwell Publishing	35
10	John Wiley and Sons	29
11	BioMed Central	27
12	Royal Society of Chemistry	26
13	American Institute of Physics	22
14	American Nuclear Society	21
15	Institute of Electrical and Electronics Engineers	20
16	Nature Publishing Group	19
17	MAIK Nauka/Interperiodica	17
